

Riyadh, Saudi Arabia

Albani United Industrial is the industrial arm of Albani United Holding, established to develop and operate strategic manufacturing ventures that combine quality, innovation, and business diversification.

Our industrial activity commenced with the establishment of several specialized factories, including:

- A sulfur production plant, focused on industrial and agricultural applications.
- Units for chemical and petrochemical packaging and bottling.
- A trading division for chemicals and petrochemicals, operating locally and regionally.

Our future plans include expanding into additional industrial sectors such as manufacturing, raw materials, and high value-added product lines.

We are committed to the highest standards of quality and safety, supported by strategic partnerships and advanced production technologies.

OUR VISION

To become a leading industrial company in Saudi Arabia, driving strategic manufacturing initiatives aligned with Vision 2030, and contributing to a diversified and sustainable national economy.

OUR MISSION

At Albani United Industrial, we are committed to developing and operating advanced industrial projects that meet local and regional market needs—driven by quality, innovation, and local content development—through strategic partnerships and modern technologies.

FUTURE EXPANSION PLAN

1

Launching the sulfur and derivatives plant in the initial phase

2

Scaling operations in the chemical and petrochemical sectors
(trading, packaging, and distribution).

3

Establishing additional factories in strategic industrial fields, including:

- Manufacturing and conversion industries
- Raw and composite materials
- High value-added product segments

4

Building strategic industrial and technology partnerships with global players.

5

Investing in high-efficiency production lines to achieve sustainable growth and long-term profitability.

Excellence Built on Experience, Quality Driven by Commitment
